Power the Powerful

With great power comes great responsibility, and great sound… well it requires great power. With years of experience, our technicians have a solution for powering just about anything that requires it. We're very selective when it comes to power, and have settled on using only the best of the best to ensure quality and satisfaction, both for our customers as well as ourselves. Whether we're handling small events or large festivals, all necessary equipment will be carefully selected to custom-fit your event.

If you build it, they will come

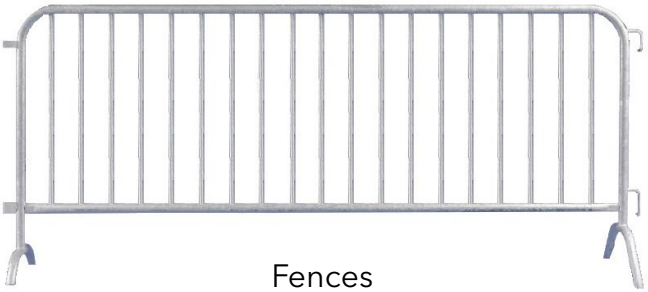

Our installation professionals offer you a dependable and safe pathway when it comes to building from the ground up. Trussing, rigging, & staging are an essential part of any performance and the key to it all is guaranteeing the safety of the performance acts, staff, and public. Our TRS team provides you with the luxury of a carefree evening for all, and a good impression imprinted on the hearts and minds of your existing and soon to be loyal attendees.

Safety is number one when it comes to public events, so we prefer not to play around when it comes to an event's stability (literally and figuratively). Always guarantee your audience the same safety you would recommend your loved ones with well maintained trussing, structures, stands, hoists, etc.

Light

Setting the Mood

While quality sound may draw a crowd, the mood and setting is what retains them until dawn. Light up their night with a selection of creative lighting ranging from simple spots to fully organized light performances structured to WOW an audience. (After all this time, it still amazes us)
